

I am writing in regards to the K-LOVE radio station network. This radio station serves my community, my family and I on a daily basis with solid songs and messages that are free of the sex and violence that the majority of stations carry. If you displace this station with LPFM, you will be creating a huge injustice for those who truly want to hear a peaceful and encouraging word based on the Holy Bible. This station converts many people who have no hope to life long Christians that become a ASSET to their community. PLEASE consider this as you move forward with this decision. You will be hurting many more than you will be helping which is a sad case indeed. Thank you for your consideration of this comment.
